

THE AUSSIE GIRLS DROP THE HAMMER IN HAMBURG

First, second and third at the ITU World Championship Series race in Hamburg announced the return of Australia's three Emmas (Moffatt, Jackson and Snowsill). Just when we thought it was going to be a lean year for Australia's golden girls they showed the resolve that has seen them win the last two world championships, under-23 world championship and Olympic gold medal. Well done to Erin Densham too, who also finished comfortably inside the top 10 and has been gradually getting herself back to the top after a difficult season last year with illness and injury.
